EDUCATION

BSc Computer Science
(Software Development)
UTeM, FTMK
Expected Graduation: 2026
CGPA **3.58** GPA **3.36**

LANGUAGES

Java / Kotlin
C++
JavaScript / PHP
SQL
HTML / CSS

TOOLS & PLATFORMS

Android Studio · MySQL
Apache Tomcat · Oracle APEX
jQuery · Oracle SQL Dev.
ArcGIS / Esri · Git

SOFT SKILLS

► Problem Solving
► Team Collaboration
► Analytical Thinking
► Adaptability

CERTIFICATIONS

Oracle DB Foundations
Junior Associate · Sept 2025

GIS Basics Certificate
Esri Training · Mar 2026

LANGUAGES SPOKEN

English · Mandarin · Malay

INTERESTS

🎮 Gaming & Game Mechanics
🤖 AI-Assisted Development
📱 Mobile App Tinkering
🧠 Logic & Strategy Games

CAREER OBJECTIVE

Final-year Software Development student at UTeM seeking a software engineering internship. Experienced in full-stack web, Android mobile, and distributed Java development. Passionate about writing clean, maintainable code and eager to contribute to real-world products in a collaborative team environment.

PROJECTS

FinSave · Android · Kotlin · SQLite

- Built a native Android personal finance tracker using Kotlin and Android Studio with local SQLite persistence.
- Designed an intuitive UI following Material Design guidelines with dashboard, transaction history, and budget views.

FoodSmartAI · Android · Kotlin · MVVM

- Architected a smart grocery shopping feature using MVVM pattern for clean separation of concerns.
- Produced detailed Data Flow Diagrams (DFD) and technical architecture documentation.

Distributed Java Application · Java · TCP/UDP · Tomcat · MySQL

- Developed a multi-client server system using Java socket programming (TCP/UDP) with concurrent thread handling.
- Deployed MVC servlets on Apache Tomcat with MySQL backend for full CRUD data management.

Web Application · HTML5 · CSS · JavaScript · PHP · MySQL

- Built responsive full-stack web pages; jQuery for dynamic DOM interaction, PHP + MySQL for server-side data.

GIS Data Analysis · ArcGIS · Esri Tools

- Conducted spatial data cleaning, preparation, and analysis using ArcGIS tools as part of academic GIS coursework.

EXPERIENCE

Oracle Database Foundations – Practical Exercises

UTeM Academic Programme · 2025

- Designed relational schemas, built ER diagrams, applied normalisation rules, and wrote SQL queries (DDL/DML/TCL).
- Used Oracle APEX and Oracle SQL Developer Data Modeler for database modelling and application development.

Workshop I & II – Applied Software Projects

UTeM Academic Programme · 2024 – 2025

- Completed two structured workshop modules involving full project lifecycle: proposal, design, development, and delivery.

RELEVANT COURSEWORK

OOP (Java) · Data Structures & Algorithms · Database Design · Distributed App Development · Mobile App Development · Web App Development · Software Testing & QA · Software Requirements & Design · Software Project Management · Human-Computer Interaction · Artificial Intelligence · IT Security · Operating Systems · Data Communication & Networking · Geographic Information Systems
